HONOLULU, TERRITORY OF HAWAII TUESDAY, APRIL 21, 1908

PRICE 5 CENTS

COUNTIES, TO BOND, MUST TAX LOCALLY

In Dear Hawaii

"Hawaii to me is the most beautiful place I have ever seen. I have traveled around the world--almost. I have been in Italy and many beauty spots of the earth; but nothing compares with these Islands, the happy homes and the contented people. It has meant a great deal to me."—Carrie Jacobs-Bond.

Mrs. Bond gave the Bulletin copy of her song, "Dear Hawaii," which she sang last evening for the first time. "I shall issue this song with the Hawaiian coat-of-arms on the cover. I hope the people will like it. The song is dedicated to the Tenney children."

IN DEAR HAWAII

I know an Isle where skies are blue
With ocean beach like sands of gold—
Whose waters gleam with rainbow hue
And hearts and love are never cold.

Ah, could I dream forever more
Upon this peaceful, restful shore,—
To just dream on and never wake
Until eternal dawn shall break.

In dear Hawaii!
In dear Hawaii!

To these Islands, with my love,
Sincerely,

CARRIE JACOBS-BOND.

April, 1908.

Official Word That Fleet Sails July 7th

Admiral Very received in yesterday's mail his first official notice of the movements of the Fleet.

According to this notice the ships will leave San Francisco probably on July 7th for Honolulu, though the date is tentative, and dependent upon an itinerary being worked out successfully beforehand, which will include a visit at Seattle, docking at Bremerton, and a long visit to San Francisco.

The notice, under date of April 9th, outlines the movements of the Atlantic Fleet as follows: After the review by the Secretary of the Navy on May 8th, the Fleet will sail for

'Sir George' Gets Letter

It is constantly a source of comment in the Capitol building that there is so much ignorance displayed with regard to what Government the Hawaiian Islands is under. There are the people who address letters to the King of Hawaii, etc., and communications are constantly coming to and from a strange and wonderful character.

"Sir George Carter, Hawaii, Ter. Hawaii, Oceanic," is the way a youth's booklet came this morning. It is a catalog of books from France, and the handwriting on the cover is distinctly French. The other letter is the one which has caused the most comment on the admiral's ignorance of people who should know better. It is from a firm in Aurora, Ill., and the writer states that he addressed it yesterday previously to the American Consul of the Hawaiian Islands. He had since discovered, he goes on to say, that the Governor would be the proper man to address. By the way, who is the American Consul of the Islands? Surely the man who was not referring to the Irish Consul.

Robert W. Atkinson was yesterday appointed trustee under the deed of trust of the Oahu Railway and Farm Company given to secure the bond in issue of the company. The declaration of appointment was filed with Register Merriam yesterday afternoon, signed and executed by W. P. Freer.

"Bill" Chillingworth, the recent addition to the office force of Marsh & Hendry, will probably go on the Home after the Japanese still distiller, about whom Revenue Collector Braatz sent a wireless this morning.

The eight ships which sail for San Francisco are expected to arrive on the 29th, and will dock in succession upon arrival at the California port. The ships docking at Bremerton sail south as soon as they are ready to put to sea.

It is expected that all of the ships will be in San Francisco Bay not later than July 3d for the big celebration there.

The next date set is that for sailing to Honolulu—July 7th.

The Chicago has been ordered to

Dr. Cury After Rats

Dr. Cury, of the United States Marine Hospital Service, will have absolute supervision over the catchment basins and of the leprosy colony study of rats in Honolulu in the future. This information was given out by Dr. Clegg, the President of the Board of Health, this morning.

The Colon says that this does not necessarily mean that special tests will be made to get rid of rats, though this part of its work will require quite an effort but every day, in this community, when a doctor calls, these beasts will be on his table. It is believed that he will be able to do away with them entirely.

Dr. Clegg is an expert in old ways of work. He will probably institute suitable repressive measures in the service of the department over which he has charge, although nothing definite has been done yet.

Admiral Mr. Carter announced on the 10th instant that he would be in the afternoon to visit the office of the Board of Health in a great deal of the time in the morning as well.

The Colon says that the reason for this is that the members of the Board of Health are to meet on the 11th instant to consider the payment of the bonds on the county buildings, and the question of whether the county bonds in charge on the revenues of the county derived from the Territory after the activity of the Territorial bonds, the payment of which is a first charge upon the Territorial revenue. Dr. Clegg is to determine whether the bonds in a principal to the loan of County bonds than the bonds themselves, by the county, is sounding claim against.

Dr. Clegg's opinion is that the payment of the bonds on the county buildings is a principal to the loan of County bonds, and that the bonds in the amount of \$125,000, the time for payment of the bonds on the county buildings, is sufficient to make approval of the section was not required in order to authorize their issue.

The resolution of the Board of Supervisors does not strictly conflict with the requirement of Sec. 2, Art. 65, S. L. 1907, as flying the flag of the United States, but Art. 129, which Sec. 1 of Art. 100, the issue of bonds was sufficient to its approval in this case.

Japan's Ministers Transfer

TOKIO, Japan, April 20.—Hayashi has been ordered home from China and will be sent to Rome. Ito will succeed him in China.

H. Ito, who will succeed Minister Hayashi in China, has been a counselor to the Japanese Embassy in London. He was at one time the Japanese Consul General in China.

Still Is Cars On Found Schedule

At 11 o'clock this forenoon the Rapid Transit got its boilers into sufficient shape to enable it to resume the usual schedule on all the lines. It kept up its limited service in the same manner as yesterday all this morning. The No. 2 boiler was filled with water five or six times since last evening, when the new tubes had been put in place in the ones which had burst, but although on one trial a pressure of 140 pounds of steam was developed, it was found that the pipes leaked a little, and more work had to be done. Finally, however, this boiler was placed in commission and the regular service resumed.

NOTICE

All managers of the Price Baseball Clubs are earnestly requested to attend a special meeting to be held at the Young Hotel roof garden, this afternoon at 5 o'clock.

BANNISTER'S NEW Cornell Oxfords

This swell shoe, made over the Cornell Last, has the Pointed Swing Toe, which gives it a graceful appearance, and yet is very roomy in the tread.

There's no slipping in the heel, or bulging in the sides, which are so common in some makes of shoes.

When a man wears a Bannister Shoe, he feels that he is correctly shod.
